	<i>*Please contact Morin's Technical Department for additional material options.</i>	Ribs: Yes <i>*Please contact your local Morin representative for all options capabilities.</i>

Product Highlights

- Machine roll-formed top quality and consistent product
- MX-0 delivers a minimal reveal flat panel joint while maintaining all the benefits of the pull apart joint system found in our existing Matrix, Integrity, and Pulse series
- Unlike traditional flush panels that rely on hard fasten push together joinery, this system is designed to better accommodate panel movement caused by thermal expansion
- Custom and standard perforated options available
- Can be installed vertically, horizontally, or as soffit

Installation Notes

- Please reference the Matrix MX-0 Installation Manual for standards of installation and removal
- MX-6, MX-7, P-9 and P-10 panels are not compatible with MX-0 due to insufficient reveal clearance
